Oil in the world primary energy consumption

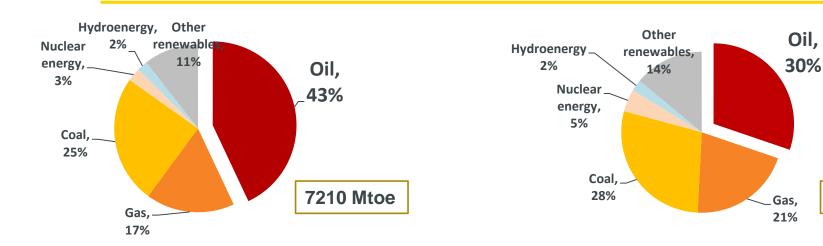

14023 Mtoe

World primary energy consumption from 1980 to 2013 by fuel

1980 and 2013 fuel shares of world primary energy

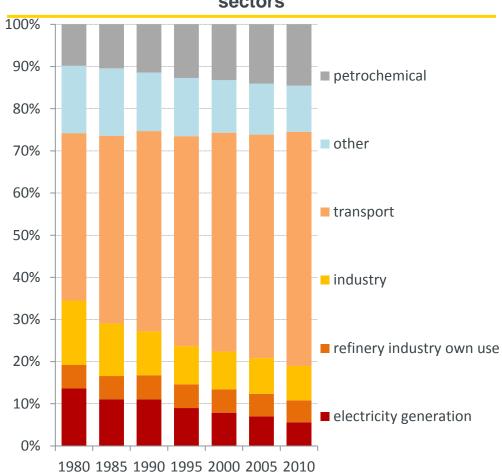

Source: IEA, BP

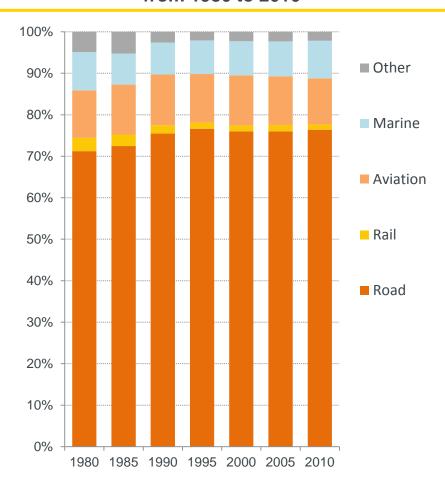

Structure of the world oil consumption by sectors

Oil structure consumption from 1980 to 2010 by sectors

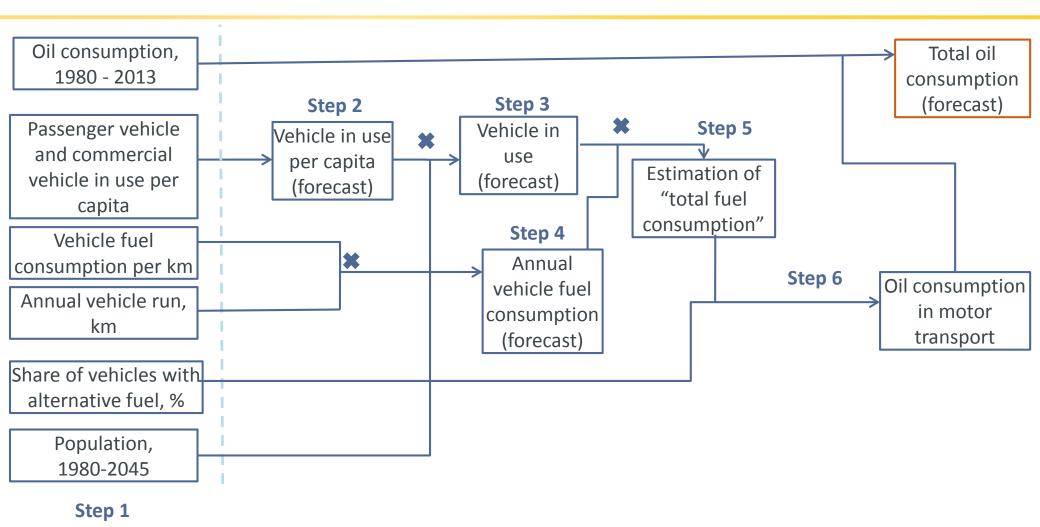

Oil structure consumption in transport sector from 1980 to 2010

Source: IEA

Modeling of oil consumption: methodology

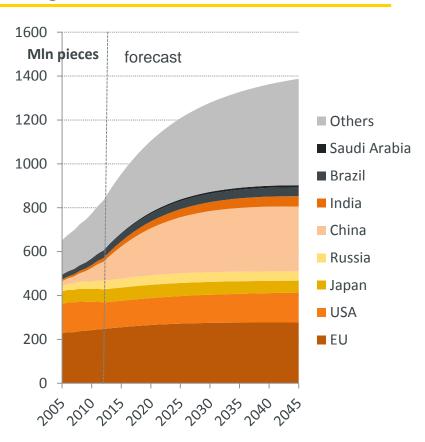

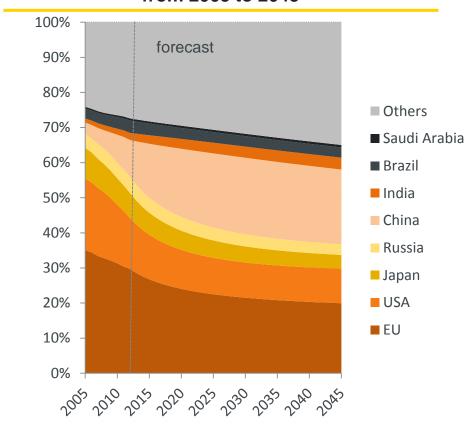

Transport. Passenger vehicle in use

Passenger vehicle in use from 2005 to 2045

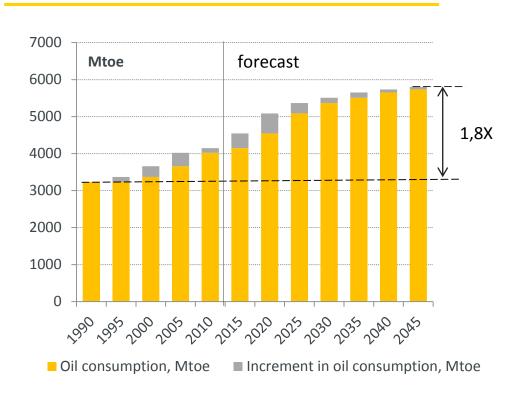

Structure of world passenger vehicle in use from 2005 to 2045

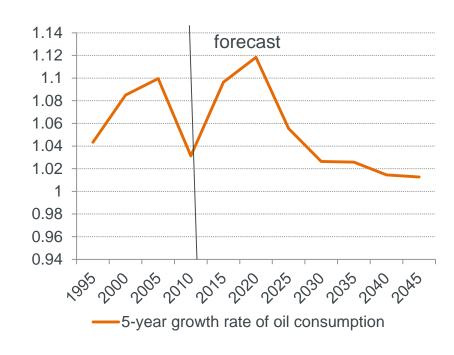

Model results: world

World oil consumption from 1990 to 2045

World oil consumption from 1990 to 2045

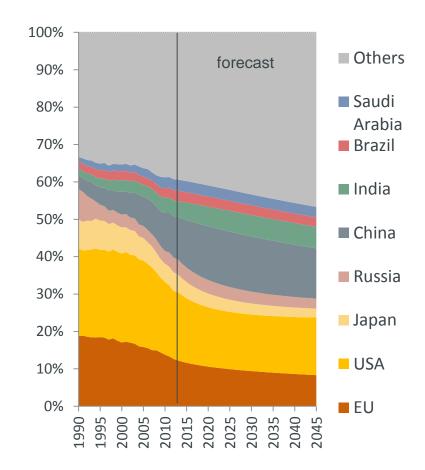

Model results: countries

Oil consumption from 1990 to 2045

Oil consumption structure from 1990 to 2045 by countries

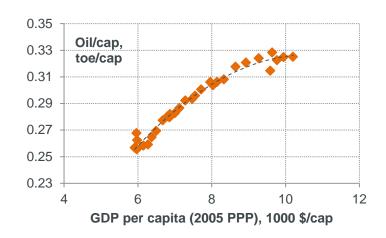

World. Relationship between oil consumption and economic growth

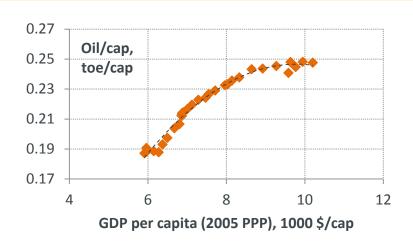

Total oil consumption from 1980 to 2011

Transport oil consumption from 1980 to 2011

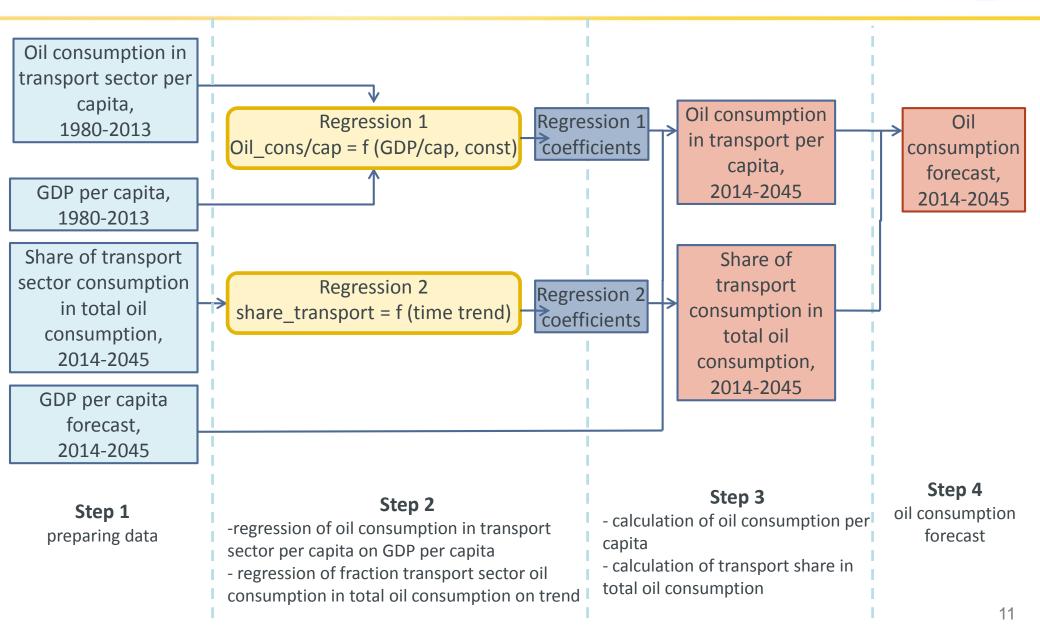

Road oil consumption from 1980 to 2011

Forecasting of oil consumption: model improvements

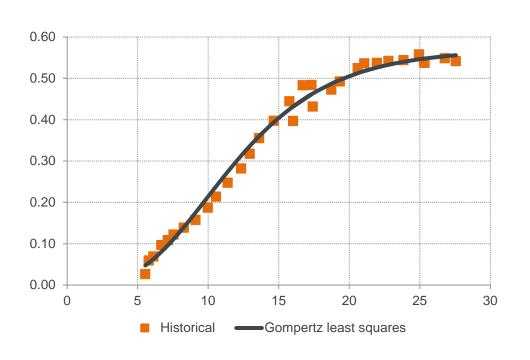

South Korea. Forecasting of oil consumption

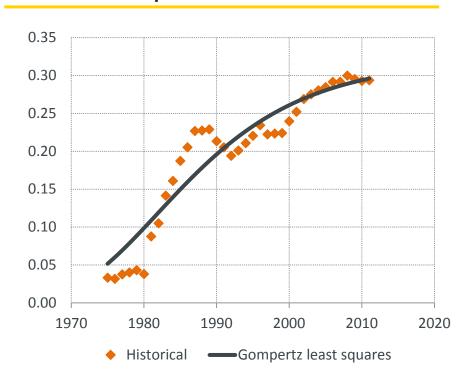

Relationship between road oil consumption and GDP per capita from 1980 to 2011

R^2=97%

Share of road oil consumption in total oil consumption from 1975 to 2011

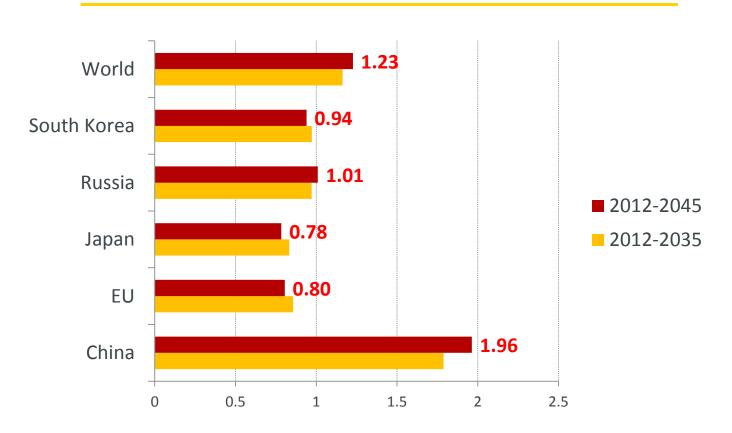

R^2=92%

Y=k*a^(b^X) - Gompertz function

Forecasting of oil consumption. Results

Forecast oil consumption from 2012 to 2035 and 2045
